Chief, Industrial Division, ORR
Acting Chief, Producers' Equipment Branch, ORR

Requirements for pictures of equipment on display at trade fairs

1. The following list represents I/PX requirements for pictures of equipment on display at trade fairs:

- a. All tractors.
- b. All trucks, buses, and special types of motor vehicles.
- c. All passenger cars (except standard models of the USSR Moskvitch, Pobeda, and Volga; the Czech Skoda-1000; the East German Wartburg).
- d. All graders (except the USSR D-265).
- e. All scrapers.
- f. All bulldozers.
- g. All excavators.
- h. All crushing and screening equipment.
- i. All mixing and paving equipment.
- j. All compaction equipment.
- k. All cranes for use in construction work.
- l. All loaders.
- m. All railroad locomotives and rolling stock.
- n. All types of agricultural machinery except plows, cultivators, seed drills, harrows, planting machines, USSR self-propelled grain combine S-4, USSR tractor-drawn grain combine S-6, USSR beet-harvesting combine KU-2, barnyard equipment, and poultry equipment.
- o. All types of mining machinery.

2. Photographs of placards giving specifications for equipment on display are just as important as those of the equipment.

3. Photographs of equipment should also include, whenever possible, close-up pictures of factory marking plates.
